SAP University Alliances

SAP® Certification Course for Students

TERP10: SAP ERP – “Integration of Business Processes”

In collaboration with selected universities for the first time, SAP University Alliances and SAP Education offers students of business and engineering degrees the opportunity to participate in a SAP certification course during their studies.

The course ends with an examination for the international recognized certificate "SAP Certified Application Associate - Business Foundation & Integration with SAP ERP 6.07".

The training "TERP10: SAP ERP - Integration of Business Processes" is offered as a 9-day block course at the University of Applied Sciences Würzburg-Schweinfurt, Faculty of Business and Engineering, Department Schweinfurt.

For the consultant profile, this course will provide the participants foundational knowledge of SAP ERP Integration. You will gain a good understanding of the basic business processes from areas of Sales Order Management, Materials and Production Planning, Procurement, Inventory Management, Project Management, Enterprise Asset Management, Human Capital Management, Accounting and Financial Accounting, all integrated within SAP ERP. Upon completing this course, participants will be able to understand analysis and reporting functions in SAP ERP as well.

The course concludes on a separate date with a 3-hour examination, a SAP Certification for "SAP Certified Application Associate - Business Foundation & Integration with SAP ERP 6.07".

Prerequisites for Participation & Cost

All students of the University of Applied Sciences Würzburg-Schweinfurt or other universities who are enrolled at a university (National or international) at the time of the course are eligible.

Although SAP recommends that participants should have basic business process and SAP knowledge, our experience has also shown that participants without this previous knowledge are able to complete this course successfully with their motivation and commitment.

When necessary, a ½ day navigation course will be offered.

This TERP10 course will be a 9-day block course in English. The fee for the course is 460 EUR per participant and an additional certification examination fee of 140 EUR. The number of participants is limited to 25.

Every participant will receive the original SAP training material. A discussion forum and additional course materials are made available via the E-Learning-System of the Univer-
The University of Applied Sciences Würzburg-Schweinfurt is offering a course aimed at enabling registered participants to prepare intensively for the certification exam. The course is voluntary and not part of the university normal curriculum. This certification is the only way for students to obtain an official certificate issued by SAP. This is done at a reasonable price compared to the official price (This course costs approx. 6,900 EUR net at SAP training centre in Walldorf and the certification costs approx. 400 EUR net: Terp10 SAP training program). The certificate is globally recognised not only in SAP-related companies but in all kinds of businesses and enterprises from multinational to SME. This demonstrates that the participants have honed their skills through intensive study and hands-on experience in business process integration.

The Certification

We offer intensive preparation with the latest training material (Col15) for the current certification exam (C_TERP10_67). SAP constantly redefined the main topics and including new current topics. The new cut-off score is now 59% instead of 51%, i.e. you need 59% correct answers for the certification. This concept has proven so far 100% success rate in the last SAP certifications in Schweinfurt University of Applied Sciences.

The Lecturers

The instructors of the course are certified SAP consultants and experienced lecturers with practical SAP knowledge, as well as experiences in numerous own certification rounds. They are very well-versed and have a profound knowledge of the subject matter.

FAQ

What does TERP10 mean?
TERP10 is a certification standard of SAP Education which is offered to students within the SAP University Alliances Program.
(T = Training, ERP = Enterprise Resource Planning, 10 = 10 Days)

Who can offer TERP10?
A prerequisite for the offering of TERP10 is a full membership in the SAP University Alliances Program.

How is TERP10 offered?
TERP10 is a ten-day course which can be offered as a block course in addition to academic courses at universities or other educational institutions. The course ends with an official SAP certification exam.

What are usual target groups for the TERP10 certification?
The course is aimed at enrolled full-time students and pupils, in exceptional cases and after an approval by University Alliances (UA) also students of on-the-job distance learning programs, for example at dual study programs. Experience shows that participants should have basic business process and SAP knowledge.

Do students have to be enrolled at a university/school?
Yes, participants have to be enrolled in an academic program at a university/school (temporary guest student status is not enough)

How is the TERP10 course material supplied?
The original SAP training materials are supplied and made available by SAP in book form (two workbooks).

How the certification exam is structured and what is the cut-off score?
The certification exam is taken by SAP proctors at the university. In the 180-minute exam, 59% of 80 multiple-choice questions have to be answered correctly.
